HATHERSHAW COLLEGE

OUR ENRICHMENT OFFER

The Hathershaw Extras programme provides pupils with opportunities for personal development outside the classroom through various clubs and activities. This allows students to build a portfolio of experiences to help them find new interests, develop as well-rounded individuals and pave the way to a successful future.
There is something for everyone to get involved in!

Year 11 Saturday D6 Tuition

For over 50% of the academic year, The Hathershaw College offers FREE Saturday morning peer tuition to year 11 students, in partnership with The Oldham Sixth Form College (OSFC). We are the only school in Oldham to offer this provision to our Year 11 students. 15 of our ex-year 11 students (currently studying A-Levels at OSFC) have completed externally validated training to become peer tutors and now offer small group/1-2-1 tutoring in English, maths, science, geography, history and French. 10am-12pm on Saturday mornings.

At the college, we believe in providing our students with opportunities for personal development outside of the classroom. We have many clubs and activities which operate after school in addition to the regular calendar of inter-school competitions which take place.

These activities include dramatic and musical productions as well as sport clubs and societies. Homework and revision sessions and other out of hours learning opportunities are also available and highly recommended.

The Hathershaw Extras programme is offered to every child to enhance their school experiences, develop skills needed in the classroom and beyond and aid their physical and mental wellbeing.

Students record their involvement in extra-curricular activities in their Pledge Passports because during their time at school, many personal and social achievements will become evident. It is important to record the information and build a good résumé to support college or apprenticeship applications for when they leave school.
